

**NOVEMBER 30, 1950: A JEEP 4x4 ZAMBONI® ELIMINATES  
UNNECESSARY ROUGHNESS IN HOCKEY.**

When the first production Zamboni® ice resurfacer hit the rinks, it was built on the chassis of another vehicle that knows a thing or two about performance on slippery surfaces—a Jeep 4x4. Today Jeep Wrangler, Jeep Grand Cherokee, and the all-new Jeep Liberty continue to offer capability that inspires. How? By being the only 4x4s backed by 60 plus years of product innovation and four-wheel drive leadership. And the only 4x4s that are routinely tested on the Rubicon Trail. There are great things built into every Jeep 4x4. And, as Zamboni proved back in 1950, sometimes great things are built on them as well.

**Jeep**®

**THERE'S ONLY ONE**
